9. Item 10- Monthly Investment Review by John Oliver Beirne of Beirne Wealth Consulting, LLC.

   John Oliver spoke to the Board via phone conference and provided an overview of the current market. He indicated that fortunately the portfolio was positioned well prior to the Corona Virus outbreak which of course no one could have anticipated, but with their conservative posture they were able to protect some of the portfolio in this downturn. The portfolio is down approximately 4% while the market dipped 27%.

   Mr. John Beirne noted that the U.S. is now a major exporter of oil and with the development of the fracking industry a great amount of debt was created which will cause bonds to suffer dramatically and fracking companies will probably face bankruptcy. Capital expenditures were cut dramatically across the energy patch. Again with the conservative posture within the portfolio they were able to keep $24 million in cash in the portfolio. The stock market was not structured to handle such a decline and right now approximately 90% of stocks and 90% of bonds are down. There is panic in the market and Beirne will be looking to take advantage of those days. Real estate and the Longford funds will do well in this environment.

10. Adjournment.

   At 5:30 p.m. there was no longer a quorum and the meeting was adjourned.
