Water Pollution Control

Division of Public Works

WPC office: 860.584.3821

Emergency: 860.584.7796

WPC Operates and maintains wastewater collection & treatment facilities.

Water Pollution Control is responsible for the City's sewer lines. Residents are responsible for the sewer line from their home to the City's line in the middle of the street.

Manholes: Call WPC if water is coming out from under a 24" diameter round manhole cover in the street or if the manhole cover is missing, loose or sticking up.

Sewer Backups: Water actively backing up into a basement through plumbing fixtures (i.e. toilet, sink drain, shower drain) may be a problem with the City's sewer line.

When basement plumbing fixtures (below street level) begin to drain slowly, we can investigate to see if there is a problem with the City's sewer line.

There is no charge for us to investigate!

Visit the Public Works Web site! You can look up your rubbish/recycle day, find maps to our facilities, print a recycle guide, and more!
