**Request for Proposals 2012-016
Prefabricated Steel Structure
Addendum 03
August 29, 2011**

Please note:

The due date for responses is changed from **Tuesday, August 30, 2011 at 11:00 am to Wednesday, August 31, 2011 at 2:00 pm.**

The contractor shall construct a frost wall around the perimeter of the building that is able to support any vertical loads/forces transferred to it by support columns, the wall system, garage door supports, etc., coupled with an appropriately sized support footing system.

The building electrical service will be from in the main building, the electrical wire/service is located at the southwest corner of the proposed building. It is intended that the contractor will sleeve it underground and up into the inside wall of the building to a panel box; and this work, sleeving, conduit, panel box, etc. is considered included as part of the building bid.
