TOTAL DEBT SERVICE		\$0	\$0	\$0	\$0	\$0

Program Summary

This series of line items reflects those expenditures made by the City for principal and interest payments for short and long-term debt. A debt service fund was created for the payments made to service this type of debt. The debt service fund is not a budgetary fund. Deposits to the debt service fund are in the form of operating transfers out from the general fund.

Shown below are the expenditures in the debt service fund during the past five fiscal years.

Numbers in the above chart are in thousands

Debt Management (continued)

Program Commentary

Capital infrastructure is essential to all municipalities large and small. The amounts budgeted and expended for debt service have a direct relationship to the City's strategies for financing capital improvements. It is important to prepare a short-term and a long-term plan for the replacement and/or addition of City fixed assets and to estimate the available funding sources. To implement both plans (short and long-term), the City prepares a Capital Improvement Program (CIP). The CIP is a multi-year plan that identifies capital projects to be funded during the planning period. This represents the City's long-term infrastructure plan. The City also approves a Capital Budget, which represents the first year of the CIP. The Capital Budget, described beginning on page 329, is the City's annual appropriation for capital spending and is legally adopted by the City.

The City uses a policy of providing a mix of current revenues, state and federal grants, intergovernmental contributions, and bond proceeds to fund its capital projects. However, given the advantageously low long-term debt rate environment during the past couple of years, the City has consciously chosen to issue long-term general obligation debt for its larger capital projects.

Bond Rating

The Government Finance Officers Association (GFOA) Elected Official's Guide to Rating Agency Presentations describes a **bond rating** as an independent assessment of the relative credit risk associated with purchasing and holding a particular bond, and the likelihood that the obligation will be repaid. The rating focuses on the city's ability and willingness to make full and timely payments. The City of Bristol uses the services of three rating agencies.

There are three primary agencies that rate debt issuances of private and for-profit entities. They are: Moody's Investors Service, Standard & Poor's Ratings Service, and Fitch Inc.

Bond ratings are public information, and the rating agencies use a number of means to distribute their ratings to a wide audience. Investors are the most common users of bond ratings. But because ratings are so accessible and easy to understand, the media, policy makers, and taxpayers also use them and often consider the rating an indication of a municipality's, like Bristol's, overall fiscal health.

A credit rating does affect the cost of borrowing. A high bond rating indicates low credit risk to the investor, low risk results in a higher sale price and lower coupon interest rates for the bond's issuer (the City). When all other factors are held constant, borrowing will be more costly for an issuer with a lower bond rating.

In assigning a credit rating, the rating agency's primary concern is the issuer's willingness and ability to repay the debt on time and in full. Different factors are then analyzed. The credit analyst will focus on four primary factors.

They are:

- ✓ **Debt management** – An assessment of the community's ability to support existing and planned debt obligations, using key financial ratios as indicators such as debt per capita and overall debt burden.
- ✓ **Administrative issues** – A review of the organization and authority of the government's administration and services for which it is directly responsible. Also included in this category is an assessment of the goals and philosophies of management and the type of budgeting used.

Debt Management (continued)

- ✓ **Financial performance** – An analysis of revenue and expenditure trends and the adequacy, dependability, and scope of revenues, including the issuer’s ability to tap into additional revenue sources for debt service. This category also includes financial position and the size and composition of fund balance.
- ✓ **Economic base** – An evaluation of the jurisdiction’s economic outlook focusing on the tax base, income, population, employment, diversity and composition of employers, building permits, vacancy rates, and real estate values.

Of all the factors, the economic base tends to carry the most weight in rating, but it is also the category over which issuers have the least amount of control. Also of prime importance is financial performance. The other two factors – administrative factors and debt management – considered “lesser” factors in the past, have been placed to the forefront by the rating agencies. In fact, all three agencies have cited that: “Bristol’s experienced and capable fiscal management has contributed to its consistent financial performance.”

The City issued \$40.4 million of tax-exempt general obligation bonds in June 2011. Taxable notes in the amount of \$7.41 million were issued on 11/15/10. The notes will mature in August 2011 and will be re-issued (rolled over) in their entirety.

Standard and Poor’s upgraded the City’s bond rating from AA to AA+, the Moody’s Investors Service rating remained at Aa3 and the Fitch ratings remained at AA.

Standard and Poor’s and Fitch assigned ratings of “SP-1+” and “F1+”, respectively to the Notes.

The bonds were issued to permanently finance various general purpose and school projects. The notes were issued to provide temporary financing for general purpose projects (mall site and related expenses).

Rating Methodology: Recalibration of Moody’s U.S. Municipal Ratings to its Global Rating Scale.

In April 2010, Moody’s recalibrated its long-term U.S. municipal ratings to its global rating scale. The benchmarking analysis of municipal credits against global scale ratings across the Moody’s rated universe will result in an upward shift for most state and local government long-term municipal ratings- Moody’s Investors Service. Due to the recalibration of the ratings, the City rating was raised from Aa3 to Aa2.

**Program Summaries-
Debt Management**

Debt Management (continued)

The following is a Ratings Guide to the three public rating agencies.

Rating	Description
Fitch IBCA	
AAA	Highest credit quality
AA (+ or -)*	Very high credit quality
A (+ or -)	High credit quality
BBB (+ or -)	Good credit quality
BB (+ or -)	Speculative
B (+ or -)	Highly speculative
CCC,CC,C (+ or -)	High default risk
D	In default
Moody's	
Aaa	Best quality
Aa1, Aa2, Aa3	High quality by all standards
A1, A2, A3	Upper medium grade
Baa1, Baa2, Baa3	Medium grade
Ba1, Ba2, Ba3	Has speculative elements
B1, B2, B3	Generally lacks characteristics of a desirable investment
Caa	Poor standing; may be in default
Ca	Speculative in a high degree; often in default
C	Lowest rated class of bonds; extremely poor prospects
Standard & Poor's	
AAA	Highest quality; extremely strong capacity to pay
AA (+ or -)	High quality; very strong capacity to pay
A (+ or -)	Strong capacity to pay principal and interest
BBB (+ or -)	Adequate capacity to pay principal and interest
BB (+ or -)	Low speculative
B (+ or -)	Speculative
CCC,CC (+ or -)	High speculation
C	Income bonds on which no interest is being paid
D	In default
* "+" or "-" may be added to Fitch IBCA and Standard & Poor's ratings to indicate the relative positions of a credit within a rating category. The digits 1-3 appended to Moody's ratings perform the same function.	

The Past (Debt Issuances)

The City's most recent debt issuance was on June 15, 2011, with a total of \$40,400,000 issued. On August 1, 2011 the short-term note portion will be rolled over. The chart below illustrates the projects covered by the short-term issue:

Project	The Notes to Mature
Mall Purchase/Legal.....	\$6,275,000
Mall Demolition/Abatement.....	<u>1,135,000</u>
	<u>\$7,410,000</u>

Current Budget (Debt Service)

The City has budgeted \$6,838,000 for existing debt service obligations in the 2011-2012 fiscal budget. This amount fully funds the City of Bristol's debt service principal and interest payments on outstanding obligations. A listing of projects and outstanding bonds as of July 1, 2011 can be found on page 358.

Debt Management (continued)

Capital Project Loan Obligations

The City entered into Project Loan and Project Grant Agreements from 2002 and 2006 between the State of Connecticut and the City of Bristol at an annual rate of 2%. The purpose of the loans were for Water Pollution Control upgrades to existing sewer lines to reduce flow volume into the wastewater treatment plant.

These obligations are being repaid monthly through sewer user fees within the Water Pollution Control Capital Non-recurring fund.

Shown below are the Clean Water Loans that were received by the City of Bristol. A schedule of the remaining balances can be found on page 357.

Contract #	Date of Issuance	Amount Issued
415 D/C	6/30/2002	\$ 1,409,533.19
498 D/C	6/30/2002	\$ 1,483,380.00
504 C	12/31/2003	\$ 1,488,101.08
562 C	11/30/2004	\$ 693,527.00
464 C	5/31/2006	\$ 470,225.00
Total Cleanwater		\$ 5,544,766.27

Capital Projects

A detailed explanation of approved Capital Projects for the upcoming year to be funded, in part, by debt issuance may be found behind the 'Capital Budget Summary' tab located toward the back of this document. The City issued \$40.4 million in long-term bonds on June 15, 2011. The majority of this issue is for the two new K-8 schools, with the remainder for various Citywide infrastructure improvements. A more comprehensive review of Capital Projects can be found behind the 'Capital Budget Summary' cts tab in this document. Located on page 357 of this document is a listing of bonding appropriations the City has made within the Capital Projects Funds.

The Future (Debt Policy)

In keeping with its debt policy and long-term goals, the City will strive not to issue bonds more frequently than once every two fiscal years. The City will also try to ensure its bonded debt per capita does not exceed \$1,000. The City adopted a debt policy on May 22, 2001 that can be found behind the 'Policy Initiatives' tab in this budget document.

The City issues debt only for projects included in the Capital Improvement Program and approved in the capital improvement budget. Before doing so, the City reviews the status of previously approved projects, develops information for new projects, and examines capital project alternatives. Debt levels are carefully analyzed to assess how much borrowing capacity to allow. Taken into consideration are environmental factors such as community needs and resources, external economic conditions, financial factors, such as expected year-end operating position, financial condition, proposed debt structure, market conditions, fund balance levels, as well as statistical benchmarks known to be considered by rating agencies. Used in combination, these factors help aid the current debt service decision-making process and also keep debt within manageable bounds for future debt issuance considerations.

**Program Summaries-
Debt Management**

Debt Management (continued)

The City prefers its debt structure to be level and to have a relatively rapid payback period which keeps the bond year short. Again, this strategy is viewed positively by rating agencies and allows the community to take advantage of the year-to-year reduction of debt service for other purposes.

Finally, Connecticut municipalities fall under state laws to keep debt issuances within statute-provided limits. While these authorized versus issued limits are set reasonably high, the City of Bristol is conscious of these limits and the City's total debt outstanding is well below these limits. Shown below is a graphical representation of the debt limitation imposed by the State of Connecticut vs. the actual debt authorized by the City of Bristol.

**Debt Limitation vs. Actual Debt Issued
(In Thousands)**

**Program Summaries-
Debt Management**

Debt Management (continued)

Debt Issued by Category

The charts above and on the preceding page are from the Schedule of Debt Limitation as of June 30, 2010 found on the next page.

SCHEDULE OF LEGAL DEBT LIMITATION

State of Connecticut general statutes indicate that ***in no case shall total indebtedness exceed seven times annual receipts from taxation.***

The chart on the following page shows the City of Bristol Debt Limitation and actual debt authorized in the five major categories: General Purpose, Schools, Sewers, Urban Renewal and Pension Deficit. The chart clearly indicates that Bristol is well below the statutory requirements for debt issuance. Amounts shown are in thousands.

The graph illustrates three categories for long-term debt principal for FY 2011-2012. As shown to the left, long-term debt service principal for schools will account for 39.88% or \$1,706,000 of the long-term debt service principal payments, while general improvement debt is 57.90% or \$2,475,375. The remaining 2.22% or \$95,000 consists of debt relating to past sewer system upgrades.

GENERAL	Frederick Street/Coppermine Engineering Study	81,000	
GENERAL	Senior Center Utility Upgrades	2,160,700	
GENERAL	Casey Field Improvements	210,000	
GENERAL	Single Stream Recycling Program	800,000	
GENERAL	HJ Mills Parking Lot Construction	880,000	
GENERAL	Pequabuck River Stablization Wall	680,000	
GENERAL	Willis Street Reconstruction- Phase 2	900,000	
GENERAL	Hillside Place Intersection Improvements	440,000	
SEWER	Forestville SSO Reduction Relief- Force Main	60,000	(2)
WATER	Water Storage Tank Replacement	8,000	(1)
Total		\$ 96,344,700	
(1)	Self-supporting Water Debt		
(2)	WPC User Fees will support 1/2 and 1/2 with tax funded		

** These appropriated amounts to be offset by State Grants for 73.93% or \$77,626,500 in State Grants.

The City of Bristol's debt is structured to limit the impact of taxes. We try and keep level debt service funding from year to year.
